

Kessler Axle and Transmission Parts

NEPEAN Transport is an authorised distributor of Kessler OEM Mining axle and transmission parts in Australia. We offer 100% genuine Kessler parts with service technicians on the ground in Australia.

Kessler manufactures axles, transfer cases and transmissions for heavy-duty off-highway applications. They specialise in axles with capacity above 50,000kgs, particularly those for underground mining trucks and loaders.

NEPEAN Transport supports mining and transport customers across Australia with genuine OEM parts for the repair and overhaul of Kessler axles, transfer cases and transmissions.

We hold extensive inventory of spare parts in both WA and NSW which allows us to minimise the downtime on critical equipment. Our customer service and technical support will ensure that your machinery downtime is kept to the absolute minimum.
